VSO Software Newsletter n°25

July/ August 2013

We wish you all a great summer! Your newsletter will be back in September with new info, new versions... etc

What's new?

- New product: VSO Video Converter

You asked for it, we made it! At last an all-in-one video converter that will make everyone happy!

Our VSO Video Converter converts any video, including decrypted DVD and Blu-rays, to the most popular formats so you can play your videos on any device.

Check out these great features:

- From ANY video format into: DVD, Avi, Mkv, Ipads/tablets/smartphonse, game consoles, audio, custom profiles...
- Subtitle edition (text size, color, position, character encoding, time offset for perfect video sync…)
- File merging (with timeline display mode)
- Cut off unwanted parts
- Contrast, brightness and gamma level control
- Extra fast with simultaneous conversions and hardware decoding/encoding (Nvidia CUDA)
- for DVD output: PAL/NTSC, menu, chapters...

And many more!

We're happy to share with you the first pre-release version. Get your hands on it, let us know your feedback, and make it your sole video conversion companion!

Of course, Goldmembers get it for free.

VSO Recommends

- Backup all your data to the cloud - Lifetime License Opportunity

We have come across a great, secure and reliable Cloud backup provider called DrivePop . This service offers Unlimited Data Backup for 1 or all your PC's or Mac's.
